PRESIDENT'S REPORT

In 1978 the Lower Fraser Valley Cerebral Palsy Association celebrated its 25th Anniversary. The year got off to an extremely good start at our Annual Meeting when the Minister of Health, the Honourable Mr. Robert McClelland, reviewed for us some of the history of the Lower Fraser Valley Cerebral Palsy Association and then presented an amount of \$150,000.00 to the B.C. Cerebral Palsy Association on behalf of all the Child Development Centres in B.C. For our Association, the Minister's interest in our affairs and the financial support through his ministry, confirmed for us our very viable position as a community health agency in the Lower Fraser Valley. This very kind gesture by the Minister of Health was reinforced by our own Auxiliary, who presented our Association with \$25,000.00, a thousand dollars for each year of our operation. One cannot say enough good things about the Auxiliary as its help over the last 16 years has been an inspiration to us all.

With help from the Ministry of Health and the Auxiliary we manage to provide successfully, qualitative treatment services for handicapped children and their families. In this endeavour we were assisted by a number of individuals and groups in our community. I wish to mention some of these groups because they have been long-time moral and financial supporters of our Centre. The Ministry of Human Resources, the United Way of the Lower Fraser Valley, the B.C. Lions Society for Crippled Children, the B.C. Cerebral Palsy Association, Van Zor Grotto, North Surrey Lions Club, Cloverdale Elks, Knights of Pythias, Rotary Club of Surrey, Kiwanis, Knights of Columbus, and C.K.N.W. Orphans Fund. A Centre such as ours is highly dependent on community support and understanding.

In 1978 the Agency embarked on planning for new programmes for physically handicapped children and young adults. During the last couple of years parents and others have come to us asking us to address ourselves to the needs of a residential programme for the physically handicapped children and adults. The Agency was successful in 1978 in being able to obtain capital monies to set up two residential facilities for children under 18 years of age. We are hoping that one of the facilities will open in April of 1979 and the second facility will open soon thereafter.

The Centre is also very interested in what happens to the adult physically handicapped person after they graduate from our child oriented treatment services. In this regard, over the last four years we have endeavoured to provide programmes geared towards increasing independence of young adults through the START programme. Lately help for START came from the B.C. Cerebral Palsy Association from their Adult Services Committee. The Centre also has an application pending before the Ministry of Human Resources to obtain funds to continue with these programmes.

The Centre is aware that it must get involved in planning and in providing some programmes for the adult physically handicapped. The neurologically impaired adults, known to us since childhood, are not included in many programmes such as sheltered workshops, educational courses and employment programmes. This concern for improving the life style of the adult handicapped will be pursued in the future by our Agency.

1978 is behind us now and its success was due to the dedication of the Staff, the Board Members and the various members of committees, the Auxiliary and community groups. My heartfelt thanks goes to all who have helped.

Ray Hibbert,
Chairman of the Board.

EXECUTIVE DIRECTOR'S REPORT

The Lower Fraser Valley Cerebral Palsy Association in 1978 completed 25 years of service to children and their families, and as in previous years this service was possible through the effort of many persons. Efforts came from dedicated staff, members of the Board, members of various committees, volunteers, members of our Auxiliary and many others. Each person in their own way was interested in the needs of our special children and in ensuring their optimum development.

1978 was an extremely busy year for all the departments in our Centre since we received 100 new referrals. Staff also spent a considerable time in the process of evaluating the Centre's and their effectiveness. This is an on-going process as the Centre is extremely concerned in ensuring that it offers a qualitative service to the children. This was done by adding to our medical staff, the hydrotherapy programme and the speech therapy programme. We still have an opening in the occupational therapy department which we hope to fill in 1979. We have struggled to ensure also that the young adult who is physically handicapped will have programmes to meet their needs. To meet the needs of the young physically handicapped adult we have struggled to continue with the services offered by START.

We also saw the Association develop a residential programme and address itself to other needs of the adult physically handicapped. Various outstanding needs of the handicapped child and young adult indicates that the Centre must become a strong advocate for persons with neurological disorders if they are to have a meaningful place in our society. The Centre sees a three-fold programme to ensure that the children being referred to the Centre will have a continuity of service to meet their outstanding needs of treatment, living accommodation, education and meaningful adult activities. We have a strong treatment programme, we are developing a residential programme for children with neurological disorders and we are in the beginning stages of planning for services as they become adults.

During 1978 many events took place at our Centre, in particular mention should be made of the Sophie Levitt course which the Centre sponsored along with the B.C. Cerebral Palsy Association. This was an extremely successful event and very much needed to ensure that children in the province of B.C. are receiving the best of care.

The above are only short sketches of what occurred in 1978 - a most exciting year.

Elio A. Azzara,
Executive Director.

AUXILIARY REPORT

The main objective of the Auxiliary to the Lower Fraser Valley Cerebral Palsy Association is to provide financial assistance to the Treatment Centre for the continuity of services to handicapped children and their families. While raising funds, the Auxiliary also attempts to promote public interest and awareness of the Centre and the services provided.

The Auxiliary has participated in various activities throughout the year. These include the following:

- Charity Bazaar Days at the Sevenoaks Shopping Centre in Clearbrook and the Surrey Place Shopping Centre.
- Hosting the first Sunday Strawberry Festival at the Centre in June, which we hope will become an annual event.
- In October, the Auxiliary catered a luncheon at the Centre for the participants of the Sophie Levitt course. In conjunction with this course, the Auxiliary also hosted a wine and cheese party to give the parents an opportunity to meet Sophie Levitt, Supervisor of Therapy Studies at the Wolfson Centre, University of London.
- The annual November Bazaar held at the Centre and once again this proved to be a most successful event.

The Auxiliary continues to operate two thrift shops, located in Newton and Whalley. The success of these ventures is due to the dedication and hard work of all who so generously donate their time. Our heartfelt thanks and appreciation to all the volunteers of these shops.

Each person who gives of their time and talent contributes to the success of the Auxiliary's projects and enables us to continue giving the support that is so necessary to those children attending the Treatment Centre.

Through the combined efforts of all volunteers, members, friends and parents, 1978 has been a most successful year enabling the Auxiliary to donate a total of \$32,975.00 to the Centre. My sincere "thanks" to all who have contributed to this success.

I wish the Auxiliary continued success in all future endeavours.

Vera Caston,
President.

AUDITORS' REPORT

To the Members of
Lower Fraser Valley Cerebral
Palsy Association

We have examined the balance sheet of Lower Fraser Valley Cerebral Palsy Association as at December 31, 1978 and the operating statement for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

Our examination with respect to donations, because of their nature, was limited to comparisons of recorded receipts with the bank deposits along with cross reference to the directors' minutes.

In our opinion, these financial statements present fairly the financial position of the association as at December 31, 1978 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
